

Staff Sergeant Parker Gordon Fox Suicide Prevention Grant Program Fact Sheet

New Program will Enhance Suicide Prevention Efforts

The new Staff Sergeant Parker Gordon Fox Suicide Prevention Grant Program (SSG Fox SPGP) will enable VA to provide resources toward community-based suicide prevention efforts to meet the needs of Veterans and their families through outreach, suicide prevention services, and connection to VA and community resources. In alignment with VA's [National Strategy for Preventing Veteran Suicide](#) (2018), this grant program will assist in further implementing a public health approach that blends community-based prevention with evidence-based clinical strategies through community efforts. The grant program is part of the Commander John Scott Hannon Veterans Mental Health Care Improvement Act of 2019, signed into law on October 17, 2020.

Congress has authorized \$174 million to be appropriated to carry out the SSG Fox SPGP, a three-year community-based grant program that will provide resources to community organizations serving certain Veterans and their families across the country. Organizations can apply for grants worth up to \$750,000 and may apply to renew awards from year to year throughout the length of the program. Grants will be awarded to organizations that provide or coordinate the provision of suicide prevention services for eligible individuals at risk of suicide and their families that qualify, including:

- Outreach to identify those at risk of suicide
- Education on suicide risk and prevention to families and communities
- Provision of clinical services for emergency treatment
- Case management services
- Peer support services
- VA benefits assistance for eligible individuals and their families
- Assistance with obtaining and coordinating other benefits provided by the federal government, a state or local government, or an eligible entity
- Assistance with emergent needs relating to health care services, daily living services, personal financial planning and counseling, transportation services, temporary income support services, fiduciary and representative payee services, legal services to assist the eligible individual with issues that may contribute to the risk of suicide, and child care
- Nontraditional and innovative approaches and treatment practices, as determined appropriate by VA
- Other services necessary for improving the mental health status and well-being and reducing the suicide risk of eligible individuals and their families as VA determines appropriate

VA may prioritize grant awards to organizations that focus on areas with limited access to medical services, in rural communities, on tribal lands, in U.S. territories, in areas with a high number or percentage of minority Veterans or women Veterans, or in areas with a high number or percentage of calls to the Veterans Crisis Line.

SSG Fox SPGP honors Veteran Parker Gordon Fox, who joined the Army in 2014 and was a sniper instructor at the U.S. Army Infantry School at Ft. Benning, GA. Known for a life of generosity and kindness to others in need, SSG Fox died by suicide on July 21, 2020, at the age of 25.
